# Introduction

I am currently a Mathematics teacher at New Fairfield High School.

I began my career as an airborne radar technician in the United State Marine Corps. Subsequent to my military service I achieved a degree in Engineering.

In 2002, after over two decades as Design Engineer, I attended The University of Bridgeport and earned degree General Studies with focus on Psychology and Sociology.

Continued...

I am currently attending the University of Bridgeport in pursuit of his Masters Degree in Education with focus in Secondary Mathematics Education.

“Throughout my life I have always enjoyed the passing on of my knowledge to others and have never been shy about sharing what I know.”
